- Ideal for all hair types

Ideal for all  
hair types

Deluxe soft and  
salon hard wax

Rapid  
heat up

#### INDEPTH PRODUCT DESCRIPTION:

#### **Rio® Total Body Waxing™ Hair Remover**

The Rio® Total Body Waxing™ hair removal kit includes Deluxe Soft Wax for waxing arms and legs (also suitable for men requiring hair removal from the back, legs or chest) and Salon Hard Wax for waxing more sensitive areas such as the bikini line, underarm and facial hair.

The compact wax heater is easy to use, easy to store and features rapid heat-up. The removable heating cup allows you to bring the heated wax to where you are waxing.

With the new improved formulations waxing has never been easier or more effective.

#### **USEAGE GUIDE**

As a general guide hard wax is more suitable for more sensitive areas such as the bikini line and facial hair. Soft wax is more appropriate for waxing larger areas such as arms and legs and the back.

The instruction guide and step-by-step DVD covers the most troublesome parts of the body:

- Upper Lip
- Chin
- Cheeks
- Eyebrows
- Bikini Line
- Underarm
- Forearm
- Legs

## HOW TO APPLY

Before you start simply watch the step-by-step DVD for tips and a complete guide to waxing techniques. Always do a patch test on a small area of your skin for possible skin reaction.

It is also advisable to wash and dry the area you're going to wax to temporarily remove the body's natural oils and help the wax stick to the hairs.

## USING SOFT WAX

Put a small amount of soft wax into the heating cup then place the cup inside the heater. Switch on the unit to melt the wax. Stir thoroughly until the wax has the same consistency as syrup.

With a spatula apply a thin coat of wax on the hairs to be treated then rub down a paper strip over the area. Holding the skin taut and pull the paper off in a quick motion in the opposite direction of hair growth. You may need to soothe the area before you move on to the next area.

## USING HARD WAX

Put one tablet of hard wax into the heating cup then place the cup inside the heater. Switch the unit to melt the wax. Stir thoroughly until the wax has a smooth, thick honey-like consistency.

With a spatula apply a thick and even coat of wax in even strips no wider than 1 inch. Allow the wax to cool on the skin until it is hard but still pliable. Holding the skin taut and pull the paper off in a quick motion in the opposite direction of hair growth. You may need to soothe the area before you move on to the next area.

**TOP TIPS**

- Trim your hair before waxing to about 5mm long
- Peeling off too slowly will be painful and unsuccessful.

**INGREDIENTS HARD WAX:** COLOPHONIUM (ROSIN), GLYCERIL ROSINATE, ETHYLENE/VA COPOLYMER, PARAFFIN, GLYCERYL HYDROGENATED ROSINATE, METHYL HYDROGENATED ROSINATE, HYDROGENATED COCONUT OIL, C30-45 ALKYL METHICONE, HYDROGENATED VEGETABLE OIL, CI 77891 (TITANIUM DIOXIDE), CI 77163 (BISMUTH OXYCHLORIDE).

**INGREDIENTS SOFT WAX:** COLOPHONIUM (ROSIN), GLYCERYL ROSINATE, PARAFFINUM LIQUIDUM (MINERAL OIL), HYDROGENATED VEGETABLE OIL, CI 77891 (TITANIUM DIOXIDE).

**WAX EQUIPMENT CLEANER:** ALKANES (C11-C15, iso-)
